2   Introduction

In this document we will set the start and finishing date on our different requirements from the analysis document. We will choose which requirement that should be completed when and also in what order.

Table 2.1: Deliveries

Delivery and Date	Description and IDs	Status
Delivery 1 20/4 - 2016	The admin page functionality should be almost done with add product etc. The database should be up and running with all the tables done and all columns. IDs to be done: 1, 1.1, 1.1.1, 3, 3.1, 3.2, 3.2.1, 3.2.2	Admin page: Done Edit product: Small delay Database: done exept inserted all categories
Delivery 2 27/4 - 2016	The admin should be able to add, replace and remove categories. All the categories should be defined. IDs to be done: 1.1.2, 3.2.3, 3.2.4	Categories started and some is defined in the database delayed
Delivery 3 4/5 - 2016	The Cart should be working so the User can add, remove and change products in the cart. IDs to be done: 2.2, 2.2.1, 2.2.2, 2.2.3	Cart: Done Categories still delayed
Delivery 4 11/5 - 2016	The User should be able to search, show all products in category and browse all products. Admin should be able to add new and remove existing admin accounts. The admin should be able to create new categories and edit/remove them. IDs to be done: 2, 2.1, 3.3, 3.3.1	The User can search for products but not for categories. Product page is <u>not</u> done. Admin can edit and add new admin accounts. Admin can <u>not</u> update categories or add new categories.
Delivery 5 18/5 - 2016	The User should be able to place orders. The User should get an orderID when placing an order. The User should be able to check his order with the orderID. The User should be able to click on a product to get more info about it. The admin should be able to create new categories. IDs to be done: 1.2, 1.2.1, 2.3, 2.3.1, 2.3.2, 2.3.3, 3.2.3, 3.2.4, 3.4, 3.4.1	User can place orders. Users get a order ID and can check the order. We can click on product names and get to the specific product page. Admins can create new Categories.
Delivery 6 25/5 - 2016	An Admin should be able to change and update orders. The admin should be able to create new categories and edit/remove categories IDs to be done: 3.9, 3.10, 3.11, 3.12, 3.13	Admin can now edit orders, add new categories and edit categories.
Delivery LATE	CSS fine tune.
